THE J. E. JONES LETTER

“GOVERNMENT FAILS IN INDUSTRY”

The above is the title of a widely-distributed booklet issued by the Joint Committee of National Utility Associations. It deserves a “book review.”

“The radicals who a few years ago would have had the Government continue the costly folly of operating the railroads would now have the Government take over all the electric power companies and utilities,” is a statement that will be news to most people who read the opening page of the Utility Association’s argument. The next paragraph says:

“The opening wedge is the building of a giant power dam on the Colorado River to develop a million or more horsepower where it is not needed, under the pretext of protecting the Imperial Valley in Southern California from floods at the expense of the whole Nation.”

The booklet bristles with the charge that those who disagree with the author’s bit-and-piece statements are “radicals.” Or they are the irresponsible victims of some policies of our Government that are now uncovered in radical looseness for the first time. But the joy of being a pioneer is doubtless a great satisfaction even to joint committees! For instance, says the pretty booklet:

“The American office holder, no matter how good a business man he may be, cannot make the Government succeed in business because he is always conscious of the uncertainty of his term of office, because his assistants or associates hold offices since they have votes and vote right and not for their business ability or experience, and because he is never permitted to forget that despite the Declaration of Independence, the Constitution of the United States, the Star-Spangled Banner and other forms of platform platitudes, his first duty is to his political party.”

Of course the man who wrote the above would be very resentful if he was called a “radical,” because he represents one of the Nation’s richest industries. To be a genuine “radical” one needs to be “broke,” or a political chauvinist! Is he not writing with the approval of the high priests of the public utility game? But listen—he goes:

“Of course, there is always the voter not necessarily interested in a job for himself or for a friend, who has an eye car for the fallacy of socialism and its attendant shibboleth, Government ownership. They are the visionaries—the conscientious objectors. They are the loud speakers whom the officer pretends to fear.”

Hark! here is more in the very next paragraph:

“While vastly more voters oppose the Government in industry, the fact remains that the politicians have organized the job holder and the socialist and to constitute the ever-meninging two-thirds of the minority.”

That’s the meat of the “pretty book.” The gravy is made of “Socialism and Bankruptcy,” “Rights of the States,” “Federal Failures,” “North Dakota’s Bubble Burst,” “The City of Business,” and a few relevant and more irrelevant statements from “Men of Minds.”

“THE OPENING WEDGE”

The Boulder Dam measure which the Joint Committee of National Utility Associations regards as “the opening wedge” in the work for which it has organized powerful representation at Washington, the word “radical” is used for fear of being called a “opportunist,” is one of the big sub-topics before Congress.

The project is supported by most of the leading Senators, Representatives, Governors, Mayors, and State Directors of the Water Mills of this country to whom is known as “the silent majority.” They want the Boulder Dam to become a reality for the benefit of the people of the Imperial Valley and for the States that will be affected. Just how the Boulder Dam will be built without Government assistance is a good deal of a mystery to everybody except the author who wrote a booklet to prove that “Government fails in Industry.”

A Dodge sedan driven by George Bridgeman of Mechanic Falls, Farnham, in the United States has been sedan drivers. Louis Dierment of one of the Native rents where she will be effectively set at rest during the years because of the rejection of the theory by the public at large. The cars were badly damaged but the Government of the United States still maintains its efforts to control public policies. In doing so it taken before Judge Howell Monday evening. The driver of the Dodge was a man named John H. Powers. He was arrested and fined \$100 and costs. An agent of the Joint Committee that appeared was taken and he was found to be more important than they are.

WARD—CAPEL

GRACE SANBORN ROBINSON

BETHEL AND VICINITY

SOUTH PARIS WOMAN DIES FROM INJURIES

HOLD DRIVER OF CAR IN FATAL ACCIDENT

Ethel Capen, daughter of Mr. and Mrs. Charles Capen of this town, and wife of Elias S. Robinson, passed away in marriage at the Methodist parsonage Saturday evening at eight o’clock. Rev. W. R. Patterson performed the ceremony, using the double

Grace Sanborn Robinson, affectionately known to her family and a host of friends and acquaintances as “Tune,”

and went to harmonize. The couple was born in Bethel, being the youngest were attended by Miss Alice Capen and daughter of the late Jerome Sanborn, Miss Minnie Capen, aunt of the bride, and Carrie (Stevens) Sanborn, thus

Mrs. Ward was graduated from Gould coming from one of Bethel’s oldest Academy, class of 1922, and also attended Gorham Normal School and a School which was Gould Academy. In early

Physical Culture at Ithaca, N. Y., womanhood she married Elias S. Robinson.

The groom is a graduate of Conway Union of Sussex, New Brunswick, and High School and for the past year Boston, Mass. Three children were born to them, Reginald J. Julius P. and Hilda L. Robinson.

The couple will reside with Mrs. Ward’s parents at Middle Intervale,

really are.

THE CONGRESSIONAL PROGRAM

The Uncle Sam is not such a boor as some people who write pretty booklets for public utility associations would have people believe is shown by a partial summary of legislation for the any modern ideas which interfered with session of Congress which meets Dec. 5 what believed to be woman’s true

sphere and vocation, namely the home,

While she did all this, in addition, he was too hard for her to undertake, no

she was essentially a home woman, having but scant sympathy with

that summary of legislation for the any modern ideas which interfered with

session of Congress which meets Dec. 5. This summary includes:

Important reclamation projects, in

cluding Boulder Dam, Riverine an unusual woman she yet found

duction, flood control, farm relief, rail-

way consolidation; National defense self to many friends. Reserved and

measures, including extensions for Navy somewhat retiring before strangers, to

construction; rivers and harbors; im-

provements, public buildings, annual

showed a sparkling wit and humor,

a fund of innocent and gay merriment,

The Congress of the United States is that was the delight of all those privy

to the Board of Directors of the business alleged to know her. There was nothing

of about 120,000 people. In view of the pessimist in her make-up, and

ally it maintains a sort of police su-

uring her long and trying illness, when

pervasion to keep “radical” detractors time after time those near and dear to

of Government, socialists, communists, her lost their courage, her own high

Modesty Brings Salary Boost

MOEST Wiley Moore, the Oklahoma farmer, who pitched the Yankees to their world series victory over the Pirates, was purchased from the Greenville club of the South Atlantic league last season for a moderate sum.

The big farmer boy captured the Sally league pennant for the Greenville club by winning 30 games and losing only four. The big league scouts passed him up because he was too old—he's over thirty now.

But Ed Barrow, business manager of the Yanks, thought that any pitcher who could win 30 games in a season was entitled to a job with the Yankees, writes William Henigan in the New York World. So Moore was bought by New York.

He received a contract from the Yankees this spring. The contract read that he was to receive a salary of \$2,500 and \$3,000 if he remained with the team during the season.

Moore was used mostly as a relief pitcher in the early part of the season and saved more than one ball game for the Yankees. Then he drew his regular turn on the mound.

Two months before the season closed, Moore dragged himself over to Huggins, who was sitting peacefully on the Yankees' bench at the stadium.

He stood there for a minute or two and then finally said in his farmer-like way:

"Mr. Huggins, do you think that Colonel Ruppert would be mad if I asked him for a \$500 increase?"

"I don't think so," said the Yankee manager. "Why don't you go up to the office after the game?"

Moore finally reached the office after the game and talked to Eddie Barrow, business manager of the club.

"Mr. Barrow," began the pitcher, "I'd like to have an increase of \$500 in my contract."

Barrow was well acquainted with the pitching of Moore and talked to Colonel Ruppert about the extra \$500 that the recruit pitcher was seeking.

Did Wiley get his \$500?

The old contract that Moore had was torn up and a new one calling for a salary of \$5,000 was presented to him to sign.

Wiley Moore.

MONTANA COACH SOLE DIRECTOR

Ott Romney of State University Plays Lone Hand.

Coach Ott Romney of Montana State University is one of the few remaining "lone hand" athletic instructors in America.

Romney likes to give everything his personal attention and as a result directs four sports at Montana—foot, fall, basketball, track and baseball. He has some assistant coaches but crews and holds himself personally responsible for his school's showing in all competition.

In addition to the work already outlined, Romney attends to the executive duties connected with being director of the department of physical education. He also is assistant dean of men, president of the Bozeman Service club and finds time to deliver addresses on athletes throughout the Northwest.

Romney graduated from Montana State in 1917 and then took a year's work at Utah university. At Montana State he won letters in football, basketball, baseball, track and tennis and, to round the thing out, was a member of the university debate team.

After some high school experience, Romney returned to Montana at a time when his alma mater was doing poorly in an athletic way. That was in 1922 and the teams were not making much of a showing in the Rocky Mountain conference. In the last four years and a half the Bobcats have fared rapidly to the front.

A canceled game kept Montana from qualifying for the conference championship last season in football, but it did lose a contest. The basketball team won the conference championship last winter after a hard fight.

Not Superstitious

His First Touchdown

Old-Fashioned Football Game Is Thing of Past

Hard, straight football of the old-fashioned type is disappearing and trickery is taking its place in the opinion of Dewey Graham, Norwich, Conn.

The game is more of a puzzle than a pleasure for the spectators, Graham complains. "Penalties inflicted by the spectators are not understood by the spectators, but the year there are numerous weird rules calling for penalties that are entirely unknown to the average fan."

The new rules tend to distract attention of players from the game. Too much is being left to the judgment of officials, most officials are few. A great many games end in injustice won or lost by decision of a referee, umpire or head linesman rather than an ignorant error of luck. The players had enough rules under the old system.

Porto Rico Has Joined National Boxing Body

The Porto Rico boxing commission has become affiliated with the National Boxing association and will regulate the game in that country according to the regulations of the national body. Thomas Dunbar, president of the National Boxing association, announced.

All of Porto Rico to the N. B. A. will be held in foreign men here to box in addition to France, which has a working agreement with the commission, Canada, Mexico and Cuba complete the roll that includes the boxing associations of 24 states in this country.

Porto Rico was represented in the association for the first time at the opening of the annual three-day N. B. A. convention in Toledo, Ohio.

President Dunbar also announced that Billy Kennedy, New Orleans lightweight, had been suspended indefinitely by the association for failing to fulfill a contract to fight at New Haven, Conn.

What's the Answer?

Questions No. 25

1.—How far from the mouth of the Mississippi is New Orleans?

2.—Who was the founder of Rhode Island?

3.—What was the earliest weapon used by man?

4.—Who is the champion automobile driver?

5.—Who has generally been considered the foremost American landscape painter?

6.—What French city is the leading silk manufacturing city?

7.—What English writer of poetry and romance was also a decorative artist and designer of furniture, tapestries and type?

8.—What and when was the first newspaper published in America?

9.—What other office does the vice-president hold besides the vice-presidency?

10.—What is the diameter of the moon?

11.—What general was known as "Old Fuss and Feathers"?

12.—What is rubber?

13.—Who is the world's amateur skating champion?

14.—What American woman, who died in 1926, had been celebrated for more than half a century for her work in oil, water colors and etching, and who received greater honors abroad than at home?

15.—What two large cities of the United States are not located on important waterways?

16.—What British cities are the leading centers for the manufacture of iron and steel?

17.—What British pilot was drowned while sailing near Leghorn, Italy?

18.—What was the first daily newspaper in the United States?

19.—What is the salary of the speaker of the house of representatives?

20.—What is the time from new moon to new moon?

Answers No. 24

1.—Sacajawea.

2.—The burning of a substance or body by the internal development of heat without the application of fire.

3.—Welker Cochran.

4.—"Madame Butterfly."

5.—Ninety miles.

6.—Emerson, Thoreau, Hawthorne, A. Bronson Alcott, Louisa M. Alcott and William Ellery Channing.

7.—The walnut is a family of nut bearing trees comprising about a dozen species, all of which are valued for their wood and for their sweet edible fruit.

8.—Seventy.

9.—The sun's surface is 12,000 and its volume 1,300,000 times that of the earth, but the mass is only 332,000 times as great and its density about one-quarter that of the earth.

10.—Alexander Hamilton.

11.—Birmingham, Ala.

12.—Capt. Matthew Webb in 1878.

13.—In 1921.

BETHEL AND VICINITY

Mr. and Mrs. Will Bean are rejoicing over the birth of a son, Monday, Nov. 21st.

Freeland Clark has returned home from Wilson's Mill, Me., where he has been employed.

Howard Collier, who has been confined to his home several days with the grip, is improving.

Mr. and Mrs. Harry Inman have moved to Skillington for the winter. They have rented their house.

SONG POND

Mr. and Mrs. Abner Kimball announce the marriage of their daughter, Jennie A. Kimball, to George Brown of Bethel, to take place Thanksgiving week, Saturday evening, Nov. 26th, a reception will be held at the home of her parents, to which all friends are invited.

In N. Kimball's family are sick with the measles.

Carlton Saunders has moved his family to West Bethel.

Carlton Penley and wife have moved home on the Reservoir Esary place.

Mr. and Mrs. W. H. Bond were callers at Abner Kimball's Sunday.

Bethel, Maine, November 12, 1927.

WEST PARIS

Stanley L. Perham attended the Y. P. G. U. pep banquet at Dexter recently.

Mrs. D. H. Fifield spent Thursday with her sister, Mrs. W. E. Bosserman, and niece, Mrs. Mildred Brown, at Bethel.

On Wednesday afternoon and evening was held the annual sale, chicken pie supper and entertainment of the Good Will Society at the Universalist church. The sale was given excellent patronage. Supper was served from 5:30 to 7:30, and about 250 people were amply provided for, the only discomfort being in having to reset tables. The only discomfort being in having to reset tables. The night was exceptionally pleasant, and people motored from many surrounding towns. Some places represented were Bethel, Dixfield, Rumford, Locke's Mills, Bryant's Pond, Paris, South Paris, Norway and Buckfield. The evening's program was in charge of Mrs. Lyndell Farr and was very entertaining and bright. A farce, "Timothy's Courtship," was presented

by Simeon Farr, Mildred Davis, Ella Churchill, Edward Burnham and Letty Day. Music, duet, Ella Churchill and Lyndell Farr. Violin solo, Ralph Doughty, accompanist, Ella Churchill, Song, Ursula Rowe. Duet, Emma and Belva Johnson.

Last week was book week, and the pupils from the school were taken to the library and given instruction in regard to properly selected books. Two students have followed the prescribed course for summer vacation reading, and have diplomas hung in the library.

School closed Friday for the Thanksgiving recess.

Eugene Haines has moved his meat market into Association Block, and now has an up-to-date market with plenty of room, where he has a good stock of groceries. A new refrigerator has been installed. His son Raymond is associated with him in the business.

Reynold Chase was in Lewiston Wednesday.

Mrs. Dorothy Doughty accompanied her mother, Mrs. Walter Chandler of South Paris, to Lewiston Wednesday.

A very interesting meeting of the Parent-Teacher Association was held at the high school room Monday evening, Nov. 14. After the business meeting there was a good old-time sing by all, assisted by Ralph Doughty violin, Mary Patch piano. There was a good attendance and a fine program. Reading, "The Midnight Ride of Paul Revere," by members of Grade 8. Song, Grades 7 and 8. Papers were read by members of the junior class to show how necessary is the study of Latin, and how Latin is the foundation of most of the other languages. They also showed charts to prove their statements.

No. 1. Paper on French customs, written by Amul Haata, read by Marion Hill.

Song in French, Ruby Lane, Marion Hill, Anna Korhonen, accompanied by Mary Patch. These papers were read by:

No. 2. Eugene Penley.

No. 3. Leona Bane.

Piano trio, Ellen Stearns, Junior Curtis, Frederick Briggs.

No. 4. "Diek's Dream," Milna Heikkilä.

No. 5. Elizabeth Hollis.

No. 6. Dora Kimball, read by Anna Korhonen.

Closing songs by all with piano and violin.

Much credit is due the program committee and a vote of thanks was extended to them.

The next meeting will be Dec. 12 at 7:30, and it is hoped all parents and friends interested in our school will attend.

—

TIMBER BAMBOO GROWS A

FOOT A DAY IN SOUTH

Following the timber lumber which the United States Department of Agriculture recommends for certain parts of the eastern States of the South, H. T. Galloping writes in a bulletin which was just issued as a separate publication by the Bureau of Agriculture, 1926.

"Especially, when a growth of 12 inches in diameter occurs annually, it is a height of 60 to 70 feet, forming a trunk 4 to 5 inches in diameter at the base. The plants bear the remarkable ability of reaching their full size in a short time, usually in two to four weeks, depending on the age of the parents. The new shoot suddenly breaks through the ground in the spring and then grows a foot or more a day. As the cane shoots skyward, the leaves, branches, and leafsheathes unfurl, producing a most striking and beautiful effect. There is a majesty and grandeur to these plants that makes a strong appeal to the imagination."

After obtaining full size the plants may require three to five years to fully harden and ripen. And, from a financial standpoint, it is particularly valuable on account of its rapid growth.

GORHAM MAN'S EXPERIENCE IN VERMONT FLOOD

The following article, taken from the Berlin Reporter, will give our readers some idea of flood conditions in Montpelier, Vt., and vicinity:

I have been asked to tell something of our experience in the Vermont flood and while it is impossible for one who was not there to realize the magnitude of the disaster in that part of the state, I will give briefly some of the things we saw. I went to Montpelier Wednesday, Nov. 2, and my son was to meet me there Thursday night. Wednesday night and all day Thursday it rained very hard and by Thursday noon the merchants on Main and State Sts. were moving the goods out of their basements to the first floor, which they frequently do, during a heavy rain.

The water was rising rapidly in the rivers but no one anticipated any serious trouble and at 4 p. m. when I went to the Montpelier Tavern there was no suggestion of an overflow in the streets. At 5:15 I came down to the office and the water was just beginning to run in under the door. It rose so rapidly that we were able to get only a part of the office furniture up to the second floor, and a portion of the food which had been prepared for our dinner.

About six o'clock a man came into the hotel through water waist deep and told us he had abandoned his automobile three miles back towards Waterbury. The following Sunday as I was walking to Waterbury, I saw his car on hill where he had left it and it looked as if it had just been washed and polished. He was one of the fortunate ones.

Another man with his wife and three month old baby, came in about the same time, after driving through water so deep it all but stopped the engine. His car was a week when found on Saturday.

There were about 50 of us in the hotel and we watched the water rise, step by step on the stairs until it was within a foot of the ceiling, and we were preparing to move to the third floor, when at 11:30 p. m. it stopped rising, began to fall a few hours later, and at six o'clock Saturday morning we walked out of the hotel onto what was left of State St. The proprietor of the hotel, Mr. Farmer, did everything possible for us, though his savings of years were floating down the river, and to make it still harder for him. Mrs. Farmer was at the Miller Inn—an other of their hotels and neither one could get word to the other until Saturday morning.

What food we saved was sufficient so that we had something to eat every few hours during the time we were there, and you have read the story in the Boston papers of how the can of coffee and kettle of soup that were found drying in the kitchen on Friday, were reconstituted and taken to the adjoining house over a ladder reaching from the fire escape to their window, warmed over the fire they were fortunate enough to have and served to us before dark Friday.

The sight of the flood on State St. Tuesday night and Friday cannot be described. A torrent 18 feet deep, so fast no boat could live in it till Friday afternoon, when they came and救 many who had been marooned in the station and freight house for 21 days.

A torrent filled with oil掌管 of debris. Posts of houses, whole roofs and sides of houses, heavy timbers, garages, automobiles, pianos and all kinds of furniture. Heavy rolls of newspaper from the press, glass bottles full of beer and the like etc. off the stores along the street, for the windows were broken and many incendiates set off the bad.

Friday I saw a roll top desk floating by with all the compartments full of papers. It finally hit a sun obstruction and went under.

Mr. L. G. Dillier was in the Miller Inn and all the people there were taken out late Friday night as they were afraid the foundation was weakened.

He came home Sunday evening his son about 10 o'clock after a very painful journey via Bradford and Hanover.

The property lies in ruins, though much of property lost did not bad, but otherwise we went to find a spirit of courage and cheerfulness and a will to carry on. A wonderful spirit which is bound to win, but conditions which will require all the help that can be given.

Sunday noon my son got word to me that he was in Stowe and I went to Waterbury to compare with the Army doctors who had walked over the main lines the night before to bring serum to Montpelier. The deviation and damage between Montpelier and Waterbury and in Waterbury is terrible.

One man in Middlesex was asked how the bridges were, replied, "All gone," and to the question, "How are the roads?" he replied, "Just the same"—and he was telling the truth. Ralph tried to reach me Thursday but was turned back by the dead at Waterbury and I found him on Sunday,

GILEAD

George Campbell returned to his home in Mechanic Falls Monday after spending several days at "Hunters Rest" on Lary Brook.

Miss Thelma Heath of Beecher Falls, Vt., is spending her vacation with her mother, Mrs. Lena Heath.

Mrs. Elizabeth Leighton has returned to Auburn after spending a week with relatives and friends.

C. C. Quimby has moved his family onto the farm he recently purchased, known as the Peabody Farm.

The Parish Guild met at the home of Mrs. Herbert Wheeler last Wednesday afternoon. Several members were present and sewing was enjoyed. Delicious refreshments were served by the hostess. Those present were Mrs. Charles Cole, Mrs. J. E. Richardson, Mrs. May Curtis, Mrs. Susie Acreburn, Mrs. Ada Cole, Mrs. Margaret Emery, and Misses Grace Bennett and Elmeline Heath.

The next meeting will be at the home of Mrs. Charles Cole.

Perley Bennett of Portland is a guest of his sister, Mrs. Ada Cole.

Philip Lester of Berlin, N. H., was a guest of relatives in town Sunday.

Mr. and Mrs. Matthew Fiske had moved on the Quimby Farm.

Mrs. Ellen Wentworth of Gorham, N. H., was a recent guest of her son, E. B. Curtis, and family.

Mrs. Alice Pennington has completed her duties at the home of Mrs. George Leighton and gone to Portland.

Russell Cole was a recent guest of his sister, Mrs. Arris Garey at Auburn.

Mrs. Julia Lester of Berlin is visiting relatives and friends in town.

SOUTH ALBANY

Mr. and Mrs. Hugh Little are spending the week in Portland, the guests of Mr. Little's mother.

Mr. and Mrs. Wallace Conwell were in Norray Thursday on business.

School in the Clark District is closed for one week's vacation.

Preston Flint called at J. A. Kimball's Friday afternoon.

B. Burk and M. M. Burnham from Bethel were in this locality buying stock last week Friday.

working with the automobile repair crew. We finally started from Stowe Monday at noon with seven other cars. We went to Burlington, crossed the lake to Plattsburgh, went to Montreal and home by Derby Line and Island Pond traveling 352 miles in 24 hours with only four hours out for sleep.

Enough cannot be said in praise of the Red Cross for the efficient way in which they have handled the situation from the beginning. Everyone was furnished food and shelter and there was a spirit of helpfulness and a desire to do everything possible to alleviate suffering and to give information and to bring families together.

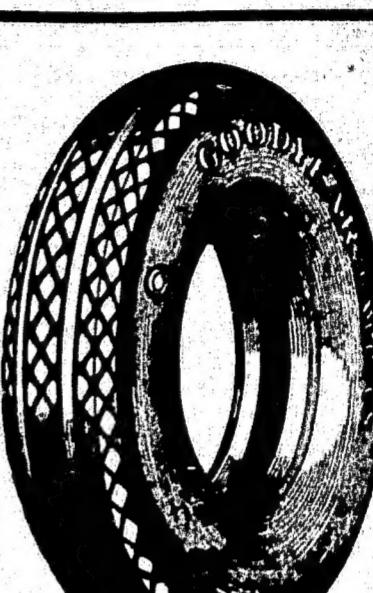

We can do no larger good at this time than by generously supporting our annual Red Cross drive for membership, for I have seen a first hand demonstration of the wonderful good that the organization is doing. B. C. SMITH.
